

VISHAKHA BHATTACHARJEE

Senior Business Intelligence Engineer | Analytics Engineering | Product Analytics
Los Angeles, CA · Open to Remote | vishakha.18.b@gmail.com | [LinkedIn Profile](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior BI & Analytics Engineer with 10+ years building KPI frameworks, data pipelines and semantic layers across streaming, grocery supply chain and telecom. Currently builds partner analytics used by 300+ Prime Video partners; previously saved ~\$2MM in grocery order cancellations and led a BI team serving 34M+ telecom customers. Applies GenAI and agentic automation to cut manual work.

WORK EXPERIENCE

Amazon

Los Angeles, CA

Business Intelligence Engineer II, Prime Video Partner Experience

Jul 2025 – Present

- ▶ Built the partner KPI framework, data pipelines and Cube.yml semantic layer serving 300+ partners across multiple products, now also powering a short-form video personalization experiment with 10% higher engagement in early results.
- ▶ Built the metrics and measurement for merchandising experiments across carousel ranking, title ranking and hero banners, identifying a statistically significant 4.5% click-through lift ($p < 0.001$) from title ranking and delivering partner-ready readouts.
- ▶ Automated ~10 hrs/week of on-call investigation by building agentic workflows that triage tickets and separate data issues from real metric shifts.
- ▶ Improved pipeline runtime by 30–40% and restored reporting for 100+ sub-brands by realigning metric definitions and rebuilding internal and partner reporting pipelines.
- ▶ Defined Pendo feature tracking and in-app guide dashboards, contributing to a 30% increase in feature adoption and a 10-point NPS lift.

Business Intelligence Engineer II, Global Supply Fulfillment Amazon Grocery

Jul 2023 – Jun 2025

- ▶ Reduced DC-driven instock misses by 1.5% in 2 months by identifying and sizing the failure buckets behind out-of-stocks across all grocery distribution centers (DCs), which supply 50% of stock to fulfillment centers and stores.
- ▶ Improved instock rate by 2%, cut waste by 4% and saved 10+ hrs/week of troubleshooting by mapping the buying workflow with Product and building a deviation tracing framework that flags controllable errors like manual overbuys.
- ▶ Automated 2+ hrs/week of Weekly Business Review analysis by co-building one of the team's first GenAI use cases with a data engineer, an anomaly detector that flags instock issues.
- ▶ Mentored junior BI engineers and new hires on technical delivery, project scoping and stakeholder communication.

Business Intelligence Engineer I, Global Supply Fulfillment Amazon Grocery

May 2021 – Jul 2023

- ▶ Saved ~\$2MM across Europe and North America by lowering order cancellations from ~9% to ~3%, building a driver-level analysis that let operations fix issues proactively.
- ▶ Reduced average pick time by 18% by using regression to find its key drivers, then optimizing product placement and picker rotations.
- ▶ Reduced warehouse defects (DPMO) by 25%, enabling an estimated \$325M in cost savings across North America, by building a rule-based model that flags spoiled inventory and bin mismatches ahead of weekly audits.

Tech Mahindra Ltd.

Kolkata, India

Senior Business Intelligence Engineer

Oct 2014 – Jul 2019

- ▶ Led a team of 4 building ETL and reporting layers for MTN, VIVA and Vodafone, tracking KPIs for 34M+ customers across Kuwait, Qatar and South Africa and informing CXO decisions on plans, promotions and segments.
- ▶ Streamlined the report catalog from 1,200 to 400 by migrating the data model from Hyperion to OBIEE, improving performance and data quality.

SKILLS

Programming: SQL, PL/SQL, Python, Spark
Cloud & Data Platforms: AWS (S3, Glue, Athena), Redshift, ClickHouse, Hive
BI & Visualization: Amazon QuickSight, Tableau, Power BI, Pendo, OBIEE, MS Excel
Semantic & Analytics Layer: Cube.js / Cube.yml
GenAI & Automation: LLM Prompt Engineering, Kiro, QuickSight Workflows, Agentic Workflow Automation
Core Competencies: Product Analytics, Experimentation & A/B Testing, Statistical Analysis, ETL Development (ODI), Data Pipeline Architecture, Business Intelligence
